- Family should fill out this plan together so that everyone is aware of, and familiar with, the information recorded.
- Select a family meeting spot where everyone can go in case you are separated.
- Learn where your city or town's shelter is located and how to get there.
- Make sure each family member has a copy of this plan and that it is easily accessible for all to see.
- Go over your family communications plan at least 3-4 times a year to ensure that it is up-to-date and maintained.
- Remember: Unless there is imminent danger, text don't talk! Texts may have an easier time getting through during an emergency or disaster as phone lines could be tied up.
