Shirley Kelly,

I spoke with you this morning about Four Paws Pet Resort and getting on your March 21 agenda for me to present to you and the council a new proposal for a well needed business.

I had a meeting with Tim Burman, and Mike Disher on Wednesday and showed them what I am trying to do here in Port Orange.

To give you an idea - I am wanting to see if I can put in a pet resort, not a kennel. This is just like a hotel only for small pets. I gave a presentation to Tim and Mike and they gave me your number so I could give you and the council members a presentation to make sure everyone will agree that I will be able to put this business here in Port Orange. I have 2 properties that I am interested in and will show you what I am all about and where the properties are located. Tim and Mike said I would need to go for a new use application, but thought it a good idea to get on the agenda for March 21. I guess I am trying to see if this will be something Port Orange will allow me to do before I purchase a building and found out it is not welcome.

I am sure without a doubt that once you hear my presentation and see that this is going to be great for the community, you and your council members will fall in love with the idea of having a well needed Pet Resort in this area.
