**ALLEN GREEN
MAYOR**

*Mayor Allen Green
City of Port Orange
1000 City Center Circle
Port Orange, Florida 32129*

Dear Mayor Green,

Congratulations to you and your staff for helping make Port Orange a successful business model for other Cities in our area to emulate.

It is obvious that a lot of thought was given to initial design, planning, and growth management. The result is a vibrant community that provides inspiration to others, and illustrates that hard work and determination are still the mainstay of success in America.

We have had the pleasure of working with your Fire Chief and his staff during the installation of the solar water heating systems on two of your new Fire Stations. We are grateful, and proud to be selected as your solar energy provider for these facilities.

We would like to have an opportunity to share additional information about solar technology, and the benefits of utilizing clean energy. Would it be possible to reserve a time slot on an upcoming Council Agenda to discuss solar options and answer questions regarding renewable energy?

Best Regards,

*Bill Gallagher
